

The Northwest Ordinance

Edited by Frederick D. Williams

Adoption of the Northwest Ordinance in 1787 ended a long and sometimes acrimonious debate over the question of how to organize and govern the western territories of the United States. Many eastern leaders viewed the Northwest territory as a colonial possession, while freedom-loving settlers demanded local self-government. These essays address the ambiguities of the Ordinance, balance-of-power politics in North America, missionary activity in the territory, slavery, and higher education in the Old Northwest. Notes, bibliography, index.

On the Eve of the Conquest *The Chevalier de Raymond's Critique of New France in 1754*

Edited and translated by Joseph Peyser

In 1754, Charles de Raymond, chevalier of the Royal and Military Order of Saint Louis and a captain in the Troupes de la Marine, wrote a bold, candid, and revealing expose on the French colonial posts and settlements of New France. *On the Eve of the Conquest*, more than an annotated translation, includes a discussion on the historical background of the start of the French and Indian War, as well as a concise biography of Raymond and Michel Le Courtois de Surlaville. The events surrounding Raymond's controversial year as commandant of the post (now Fort Wayne, Indiana), his disputed recall and the subsequent friction are presented in detail and illustrated by translations of their correspondence. Notes, photographs, maps, tables, index. Cloth, 220 pp., 0-87013-433-7, \$44.95

Quebec During the American Invasion, 1775–1776 *The Journal of François Baby, Gabriel Taschereau, and Jenkin Williams*

Edited by Michael P. Gabriel, S. Pascale Vergereau-Dewey

Available for the first time in English, the 1776 journal of François Baby, Gabriel Taschereau, and Jenkin Williams provides an insight into the failure to incite rebellion in Quebec by American revolutionaries. This journal focuses on French-Canadian peasants (*les habitants*) who made up the vast majority of the population; in other words, the journal helps explain why Quebec did not become the "fourteenth colony." Illustrated with photographs. Paper, 192 pp., 0-87013-740-9, \$26.95

The Sixty Years' War for the Great Lakes, 1754-1814

Edited by David Skaggs, Larry L. Nelson

**Winner: 2003 Center for Archival Collections
Local History Publication Award**

Twenty essays about the wars for the North American heartland from 1754 to 1814, not only military and naval operations but also the political, economic, social, and cultural interactions of individuals and groups during the struggle to control the great freshwater lakes and rivers between the Ohio Valley and the Canadian Shield. Maps, B/W illustrations, index.

The West to Far Michigan *Settling the Lower Peninsula, 1815-1860*

Kenneth E. Lewis

This study of the Michigan's lower peninsula occupation between 1815 and 1860 was by agriculturalists whose presence forever transformed the land and helped to create the modern state of Michigan. This period marked the opening of Michigan to immigration, the rise of commercial agriculture, and Michigan's integration into the larger national economy. Diaries, letters, memoirs, gazetteers, and legal documents transform the more abstract elements of economic and social change into more human terms. Notes, index, maps, illustrations, bibliography.

Michigan State University History

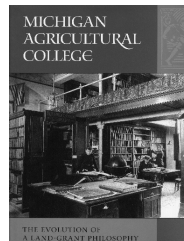

Justin Smith Morrill *Father of the Land-Grant Colleges*

Coy F. Cross

Almost every land-grant college or university in the United States has a building named for Justin Smith Morrill. Representative and then senator from Vermont, he began in Congress in 1855 and served continuously for 43 years. Morrill's most-recognized achievements are the Morrill land-grant college acts of 1862 and 1890, which eventually opened American higher education to the working class, women, minorities, and immigrants. Notes, photos, bibliography, index.

Michigan Agricultural College *The Evolution of a Land-Grant Philosophy, 1855–1925*

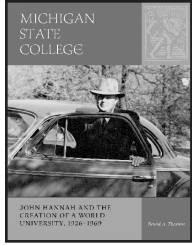

Keith R. Widder

**Winner:
2006 Michigan Notable Book Award**

Vintage photographs profusely illustrate this saga of America's premier land-grant institution, long before it became Michigan State University. Forward-looking legislators, scholars, and administrators found an oak clearing in the midst of central Michigan swampland and there laid the groundwork for what would become one of the world's great universities. From the school's founding in 1855, and for the next 70 years that are discussed in this volume, the institution struggled to find itself and, in the process, helped to invent the notion of what it means to be a university "for the people," a land-grant university. Over 200 B/W photographs.

Michigan State College *John Hannah and the Creation of a World University, 1926-1969*

David A. Thomas

This second volume in the Sesquicentennial history of Michigan State University explores the "Hannah years." Today's Michigan State University cannot be separated from the enormous influence of one man, John Hannah. As the 12th president of Michigan State University, Hannah served from 1941 to 1969. His tenure was characterized by the unparalleled growth of the university, in the size of the campus, enrollments, political controversy, and achievements. Illustrated with 200 vintage B/W photographs; references, index. Volume 2 of 3 volumes. Available in 2007. Cloth, 500 pp., 0-87013-772-7, \$39.95

A Memoir, by John Hannah

This is a very personal look at the growth and evolution of Michigan State University, as seen from the eyes of its dynamic president. As 12th president of Michigan State University, John Hannah served from 1941 to 1969. His tenure was characterized by extensive growth of the University, in both size and enrollments. President Hannah's activities were not limited to the University, as he filled a variety of positions in both the Civil Rights Commission, government, and private industry.

Forging a Fateful Alliance *Michigan State University and the Vietnam War*

John Ernst

This is an important study of the Vietnam War and American higher education -- revealing how secret and semi-secret institutional involvement in that conflict led to public disclosures that undermined the integrity of academe. After Indochina's de facto division in 1954, Michigan State University offered South Vietnam an array of technical support as part of the "nation-building" program. In return, the U.S. government provided the university with generous clandestine and open financial remuneration -- money that the university would use to expand academic programs, construct new facilities, and fuel its dramatic growth. Illustrated with photographs. Index

From A Single Window *Michigan State University and Its Press, 1947-1997*

Maurice Hungiville

The international conversation about public policy, civil rights, history, and literature: Anti-communism, anti-intellectualism, student protest movements, Vietnam War, inflation, and corporate consolidation are examined from the special perspective of Michigan State University's dynamic press. This is the inside story of how writers, professors, and administrators enabled Michigan State University to build a scholarly press. Based on previously unexamined documents from MSU Press archives and extensive interviews, this history describes the powerful national forces that shaped both MSU Press and the University. This work presents new evidence of its parent university's clandestine involvement in the Cold War and it celebrates two previously unrecognized defenders of the First Amendment. Notes, photographs, bibliography, index.

Reclaiming a Lost Heritage *Land Grant & Other Higher Education*

John R. Campbell

Campbell evaluates significant developments as well as exciting opportunities for revitalizing the land-grant university system to serve the public responsively and responsibly. He issues a challenge to political leaders to return to the fundamental tenets that have always buttressed the land-grant system, as we continue fulfill the rational initiatives for higher education prescribed for the twenty-first century. A University Turns to the World

Ralph H. Smuckler

Foreword by Clifton R. Wharton Jr.

A University Turns to the World examines the growth of Michigan State University's pace-setting International program beginning in 1956 when President John Hannah named the nation's first international dean to head a university-wide effort; faculty members then went to Okinawa, Colombia, Brazil, South Vietnam, and Pakistan. Smuckler's leadership of the international program and intimate involvement in MSU at home and abroad enable him to recapture the dreams and disappointments of the development promise. Illustrated with 16 b&w photographs.

The Test

Walter Adams

"When I was appointed president of Michigan State University, it was fortunate perhaps that I was encumbered neither by administrative expertise nor experience." —Walter Adams, *The Test*

World-renowned economist and president of Michigan State University, Walter Adams recounts the tumultuous nine months of his office: as the first university president to follow the legendary John Hannah, Adams inherited the unease and resentments that had been quietly swelling under seemingly calm administrative waters. With gripping honesty and clarity, *The Test* not only chronicles events, but offers an indictment of those institutional structures that ignored very real social concerns in favor of esoteric academic pursuits...an invaluable documentary of one of the most dynamic periods in American history.

MSU Campus *Buildings, Places, Spaces - Architecture and the Campus Park of Michigan State University*

Linda O. Stanford, C. Kurt Dewhurst

"...a valuable resource about one of the nation's most beautiful campuses." —*Michigan History*

Since its 1855 founding in the wilderness, Michigan State University and its early landscape gardeners influenced by Ossian Simonds and Olmsted Brothers had the consistent intent to interrelate architecture and the campus park. The result reflects major trends with historical sites or markers, public art, and natural locations that complement more than one hundred extant buildings, complete with individual stylistic and historical descriptions and photographs. Illustrated with 150 B/W photographs, glossary of architectural terms. Cloth, 180 pp., 0-87013-631-3, \$34.95
